SUMMARY

Experienced UX/UI Frontend Developer / Designer with a demonstrated history of working in the B2B and B2C information technology and services industry. Skilled in User Experience, User Interface Design and Development, HTML, CSS, JavaScript, Axure, Adobe and Agile & Waterfall Methodologies. I have had exposure to Angular4 and I am currently enrolled in a Full Stack Developers boot camp to add backend development to my skillset. I am a knowledge solid, information technology professional focused on Web Design, Development and Programming.
